

# Brentford Community Stadium

Latest photo of the stadium frame, with the terracing and roof of the south, east, and west stands now complete (May 2019).

Welcome to this latest edition of the Brentford Community Stadium newsletter which provides an update on recent construction progress and what you can expect to see on site in the next few months.

### Progress update

We are now just over a year since we held our ground breaking event and work first started on site. Construction of the new stadium continues to be on track for completion in time for the start of the 2020/2021 season.

The stadium frame, terracing and roof on the south, east and west stands have been completed and the last section of the stadium frame for the north stand was completed on 23 May and marked by a Golden Bolt ceremony. See overleaf for more details.

The exterior cladding of the new stadium is now being installed and the access route across the northern part of the site is in place.

The lift and stair cores for the first residential blocks on the

Central Eastern site are now in place and floor slabs are being installed. The lift and stair cores on the Central Southern site are in progress along with the construction of the basement car park. The last of five tower cranes is now also in position on site. The link bridge from Capital Interchange Way to the Central Eastern site has been installed and is now in use for construction traffic (see 1 masterplan).

The Sales and Marketing suite officially opened its doors earlier this year giving visitors an opportunity to view a two bedroom show apartment and displaying the finished specification of the scheme. You can find out more by visiting: [ecoworldlondon.com/places-to-live/verdo-kew-bridge](http://ecoworldlondon.com/places-to-live/verdo-kew-bridge)

### Work activity: June – July 2019

- Interior works within the south, east, and west stands is due to start, and the exterior cladding will progress as programmed.
- Preparatory work to install the new pitch and the water attenuation tank beneath it will begin.
- Substructure works on the Central Southern site will be completed by the end of
- May and podium slabs for the residential buildings on the Central Eastern and Central Southern sites are due for completion in May and July respectively.
- Works at the junction of Kew Bridge Road and Lionel Road South are due to start (see 2 masterplan).
- Enabling works on the Capital Court site are due to start in August 2019.

The Brentford Community Stadium project masterplan.

### Outline Construction Programme:

### Farewell to Griffin Park

The countdown to the opening of the Brentford Community Stadium is well underway and Brentford Football Club is planning a season of Farewell to Griffin Park events to give the current ground a good send off. The final season, starting this August, at Griffin Park will also coincide with the 130th anniversary of the Club.

### Premium seat sales

The Brentford Community Stadium Reservation Centre is now open at Heritage Walk, off Kew Bridge Road selling premium seats for the new stadium on an appointment only basis. For further information please see [www.newstadium.brentfordfc.com](http://www.newstadium.brentfordfc.com)

### Apprenticeship opportunities

There are now seven apprentices from Hounslow and the local area working on the project and we are currently advertising for two further positions to work on the new stadium development.

Members of the team have also recently visited schools across Hounslow to talk to children about health and safety on and around construction sites and career opportunities in construction and development.

Students from Green Dragon Primary School got the chance to see how green fingered they were when they helped to plant the flowerbeds around

the new Sales and Marketing suite - we thank them for their help!

For further information on our apprenticeship opportunities and community work, please email Nivene Powell, Senior Community Liaison Manager [nivene.powell@ecoworldinternational.com](mailto:nivene.powell@ecoworldinternational.com)

### The Golden Bolt

A major milestone was reached on 23 May when the final piece of the stadium's steel frame was completed, marked by a Golden Bolt ceremony. Representatives from Brentford FC, EcoWorld, and our main contractor Buckingham Group were in attendance to celebrate the installation of the golden bolt which shows that the build is now structurally complete.

### Being a considerate neighbour

Buckingham Group, is signed up to the Considerate Constructors Scheme which commits registered companies to take care about the appearance of the construction site, respect the community, protect the environment and secure everyone's safety.

Every effort is being made to minimise disruption throughout the works and a Construction Environmental Management Plan and Construction Logistics Plan are being implemented by Buckingham Group and EcoWorld London for the development.

Brentford FC Chairman Cliff Crown holds the golden spanner.

**SUPER SATURDAY OF SPORT CHISWICK**

6 July 2019  
Turnham Green  
10.30am - 3.30pm

### Contact us

During the construction programme we are providing regular updates through our letters to residents, local newsletters and quarterly Lionel Road Liaison Group meetings – a forum set up during the planning application process to ensure resident associations and other stakeholders are kept informed and have the opportunity to ask any questions they may have on the development. You can view the minutes from our last meeting held on 15 April 2019 on our website: [www.brentfordcommunitystadium.com](http://www.brentfordcommunitystadium.com).

If you have any questions please do not hesitate to contact us via email at [info@brentfordcommunitystadium.com](mailto:info@brentfordcommunitystadium.com).

For further information on the project and updates please visit [www.brentfordcommunitystadium.com](http://www.brentfordcommunitystadium.com).
